

ICEBAMO 2001
5th INTERNATIONAL CONFERENCE ON ENVIRONMENTAL AND
BIOLOGICAL ASPECTS OF MAIN-GROUP ORGANOMETALS

05.06.2001 - 09.06.2001

Castle of Schielleiten, Styria, Austria

organized by the
Institute of Chemistry Analytical Chemistry
Karl-Franzens-University Graz, Austria

<http://www.kfunigraz.ac.at/achwww/icebamo>

Goals and Scope

The ICEBAMO meetings aim to facilitate interdisciplinary discussion on environmental and biological aspects of main-group organometals. Previous meetings in Padua (1986 and 1991), Bordeaux (1994), and Odense (1998) have brought together researchers from the fields of toxicology, environmental sciences, analytical chemistry, biochemistry, and synthetic organometallic chemistry. ICEBAMO 2001 at the castle of Schielleiten, which is located about 50 km east of Graz, Styria, Austria, will provide a forum for discussing the origin, behavior and fate of organometallic compounds in the environment, and their application to and impact on biological systems.

Focus will be on the following aspects of organometallic compounds:

- Origin and pathways in the environment**
- Fate in organisms including accumulation and toxicological effects**
- Biological and biochemical studies on transformation/detoxification processes**
- Analytical chemistry including speciation techniques**
- Main group metal-based drugs**

The meeting will consist of oral presentations of invited and contributed papers and poster presentations.

Invited oral presentations will be 45 minutes.

Contributed oral presentations will be 20 minutes including 5 minutes for questions.

Posters will be an important part of the conference. Time will be available each day for viewing.

Venue

The baroque castle of Schielleiten is located about 50 km northeast of Graz, the capital of Styria. In addition to the ideal background for a conference, a wide range of different sports facilities (e.g. football, tennis, fitness studio) is offered. The nearby lake Stubenbergsee invites to all kinds of water sports. Schielleiten is reached from Graz via the routes B74 or A2 and B54. Bus transfer from Graz (airport, railway station) to Schielleiten will be offered.
